

A. Data Source:

CBSA Enterprise Data Warehouse pulled on June 30, 2021.

B. This data set consists of release requests satisfying the following criteria:

1. Service Option: All release options.  
2. Date: Release decision was inserted into the system between 2012-01-01 and 2020-12-31 inclusive.

3. Commodity:  
9301 - Military weapons, other than revolvers, pistols and the arms of heading 93.07  
9302 - Revolvers and pistols, other than those of heading 93.03 or 93.04  
9303 - Other firearms and similar devices which operate by the firing of an explosive charge (for example, sporting shotguns and rifles, muzzle-loading firearms, very pistols and other devices designed to project only signal flares, pistols and revolvers for firing blank ammunition, captive-bolt humane killers, line-throwing guns)  
9304 - Other arms (for example, spring, air or gas guns and pistols, truncheons), excluding those of heading 93.07

4. Product Description on Invoice with the following keywords:

(Irrelevant entries with keywords were manually screen out.)

# (a) the M-1 Carbine

5. Importer is not an individual

Notes:

- 1 The CBSA does not systematically collect and compile firearms information based on makes and models.
- 2 This is an ad-hoc data pull on release date from the Enterprise Data Warehouse and the data are likely incomplete due to with the following limitations:
  - a Enterprise Data Warehouse does not have pre-2012 data.
  - b Only HS code and Product Description information on invoices submitted by clients are used to identify relevant entries.
  - 3 Table 1 contains firearms of the makes and models requested, while Table 2 contains mainly air and gas gun replicas of the makes and models requested.

C. Structure of data set.

1. Each row represents an item reported in a request and is uniquely identified by columns D, F, G, H, I and J.
2. Each request is uniquely identified by column D. A request can have multiple commodities reported containing one of the keywords and therefore can occupy multiple rows.

D. Notes on fields.

1. REQUEST\_CLIENT is the party that submitted the request, whereas IMPORTER is the related party specified in the declaration.
2. BN is the Business Number of REQUEST\_CLIENT.
3. POE is based on related CCN. If a related CCN cannot be found, POE is blank.
4. EXAM\_REQ\_PGA indicates whether PGA recommended a customs or PGA exam.
5. REFER\_SEC indicates whether the release was referred to Secondary.
